Re: Reference of Dealing with Mark Gordon Weston as Financial Advisor

Dear Sir/Madam

I write this letter of testimonial for the outstanding and efficient service Mr. Mark Gordon Weston has provided me in my personal and professional capacity assisting me as Managing director and CEO of two companies with respect to company financial planning, pension/provident fund and Medical Aid.

I have known Mr. Weston for 8 years and started my personal financial planning with him in 2008.

In 2009 and 2010 I engaged with him as Managing Director of Solaire Direct Technologies to assist the company in implementing a provident fund, medical aid and employee insurance/risk cover for 147 employee's of which he successfully implemented.

He provided ongoing one to one personal advisory to each employee. In 2014 when I moved on to be Chief Executive officer of SWT Energy, I engaged again with Mr. Weston to optimize their pension fund and transgress them to a more cost effective yet more compressive cover of which he successfully implemented for 213 employee's.

Not been bias Mr. Weston has the tenacity and dedication to ensure your best interest in your financial planning is at stake and goes beyond the boundaries of his deliverables to ensure you are adequately covered and at the best premium. He does not represent a brand but instead a trusted broker whom one can trust to ensure your best interest is met.

I would recommend him and definitely utilize his services in all my direct or indirect ventures further

Yours faithfully,

Ajay Lalla

Development Director
